

Disaster Recovery as a Service (DRaaS)

Advanced Protection Plans For Your Peace of Mind

Disaster recovery is one of the most overlooked aspects of IT management, resulting in avoidable organizational challenges, production setbacks, and financial risks.

That's where we come in.

Protect your data with IDS System's DRaaS and sleep well at night, knowing you're in good hands.

Making IT Easy

When you need quick, reliable, quality IT services, IDS Systems should always be your first call. We'll always answer, and you can count on us to deliver when you need it most. That's our promise to you.

We're more than IT specialists. We're a dedicated group of professionals that value your trust and go the extra mile to secure your satisfaction – no matter the size of your task.

Wondering what the next steps are? It all starts with an in-person meeting. We'll get to know each other's teams, evaluate your organization's goals and propose recommendations for success.

Your IT Defence Strategy

We are the warriors of IT. Protecting businesses like yours from aggressive cyberattacks, sophisticated ransomware, uncontrollable environmental crises, system failures, and other IT nightmares.

At IDS, we always go the extra mile to ensure our Clients' organizations can survive and thrive in the face of IT-related adversity. With instant notifications, business continuity plans, and secure data backups, you'll be back in business as quickly as possible and with minimal impact.

Secure Onsite & Cloud Backup Technology 24x7

Backup & Recovery

When anything can go wrong in the blink of an eye, you need to know you're protected. We implement technology to guarantee your data is preserved, and your IT environment is available so your organization experiences minimal impact and can get back to business in an instant.

Disaster Recovery & Business Continuity

Nothing should come in the way of you being able to operate your business to the best of your availability. That's why when a crisis arises, we'll deal with the problem at hand so you can focus on your organization and ensure it continues to be effective.

Assignments – Projects – Managed Services
Earning your **trust**, every step of the way.

Laser Focused

IDS Systems is focused on accountability in providing quality IT services to your organization so you can sleep well at night.

We won't rest until you have peace of mind.

Expertise. Accountability. Trust.

IDS Systems has been making IT easy for Clients like you since 1994.

Not to age ourselves here, but for nearly three decades, we've been at the forefront of IT advisory, professional and managed services, disaster recovery, systems integration, and cloud services, to name a few. You can trust in our expertise to help your business.

Why IDS?

- › Emphasis on Client care and trust
- › We turn IT into a business enabler, not a cost centre
- › Really smart people (did we mention we're modest, too?)
- › We are a partner for shared success
- › There for you 24x7

IDS ServiceGuard™ Managed Service Solutions

Our *à la carte* portfolio of Managed IT Infrastructure Services includes flexible, worry-free solutions for your organization, 24x7. From after-hours monitoring to leveraging enterprise technologies and everything in between. Our promise? To offer easy solutions so you can sleep well at night knowing you're in good hands.

Professional Services

If you haven't noticed, we're passionate about technology and solving problems, and that translates into keeping your IT infrastructure secure and fully functional 24x7, no matter what crisis may occur. We do it all, and we do it well. Our solutions solve anything from short-term assignments to complex projects.

Trust us to handle your organization's IT challenges
